6.	Parent, student and teacher satisfaction	<p>St Vincent's School continually strives to be the best it can be and has a strong reputation within the wider community. Our aim is to provide a high quality, Catholic education for our students, which is inclusive for all students.</p> <p>We utilise feedback as a method for school improvement. A major source of feedback is provided by parents when enrolling new students. Parents comment on the positive reputation the school has within the community and many recommendations for enrolment come from families and friends involved in our school. A large majority of new enrolments come from "word of mouth" recommendations. We are very proud of our school and continue to seek feedback from families for continued improvement.</p> <p>Our parental response to the school's performance is positive with particular reference to the positive pastoral care and teacher support for students at risk educationally.</p> <p>The number of parents becoming and continuing to become involved in school events and committees is increasing. Parents offer support in many ways such as being members of the</p>

In 2016, our parents continued to have an active role and friendly presence within the school and classrooms.</p> <p>A Parent Information Evening was held at the beginning the school year. Parent Teacher Interviews for every student occurred early Term Two and were held on an individual needs basis for the duration of the year. There was a Learning Journey in Term Three.</p> <p>We received written letters of commendation from parents regarding aspects of school life including the high level of communication, the approachability of the staff and Principal and the quality of the learning environment. Some parents also identified the strong community spirit that we have at St Vincent's.</p> <p>We continued the outreach to families in need and aided in the support of these families by providing meals from the P&F's dinner drives initiative.</p> <p>The staff at St Vincent's take great pride in working and being a part of our school community. The staff work collaboratively and effectively with one another both as a whole staff and in teams. They are supportive of one another and continually strive to improve the quality of their teaching and learning environment for our students. The members of our staff understand that they are not only responsible for the learning and wellbeing of the students in their own class but for all children within our school under our care. The staff are valued and are given recognition for their efforts and achievements. The school provides the staff with Professional Learning opportunities and the staff are encouraged to share their learning with others. The school provides adequate support of resources both in personnel and material resources. As a whole the feedback from staff is that they are very satisfied in working at St Vincent's.</p>
